DIRECTOR'S _____MESSAGE

It gives me immense pleasure to know that 7i World School is bringing out its magazine for the academic year 2024-2025 to reflect its achievements and accomplishments in its curricular and extracurricular domains. The school provides a perfect atmosphere for nurturing talent, cultivating skills and maintaining values of life. School is a prestigious institute in the field of education. Our mission is to make quality education accessible to the new generation, who are the future of our country.

There is nothing more valuable to a parent than his child and when a parent imposes faith with this belief in us, it becomes a task of a lifetime. Keeping that in mind it's no surprise when I reiterate to my staff the paramount importance of morality and ethical values by reminding them of wise saying - "After certain time kids don't remember what you taught them but what you were".

Children must learn Love, care, share and prayer so that they become sensitive to the well-being of others and the world outside. These values add excellence to the character. They liberate us from narrow and negative thinking and help us to evolve into better human beings.

I congratulate the entire team for its concerted effort in reemphasizing the core value of moral education and wish that the process will continue and go a long way in enriching the educational heritage.

Finally, I must add that the students of our school are making us so proud by the conduct of their educational and social aspects of life. They are bringing glory to themselves, their families, to us and above all to the nation. I wish them all the success in life.

FROM PRINCIPAL'S DESK

There is something for everyone here. The verity and creativity of articles in the magazine pages represent the talent of 7i faculty. I congratulate the entire team for their hard work and dedication for making this magazine. The reflection of students and teachers' creativity is the epitome of the magazine. I am sure that the positive attitude, hard work, sustained efforts and innovative ideas exhibited by our young children will surely stir the mind of the readers and take them to the fantastic world of unalloyed joy and pleasure.

I take this opportunity to earnestly thank the Management, parents and all stakeholders for their continued support in all of our endeavours. May our students march forward towards being awakened, worthy and responsible global citizens.

Whilst we know that the information here will give you answers to some of your questions, we also know that learning is social, and in this context, we encourage you to come and speak to us in person for a more detailed perspective. I look forward to working with you as we help create a school where parents are welcome at any time, students are engaged in meaningful learning and the staff members are valued and appreciated for their efforts.

May our students succeed in all their endeavours in the aspired arenas.

CCA INCHARGE _____MESSAGE

Dear Readers

Each issue of our school magazine is a milestone that marks our growth, unfolds our imagination, and gives life to our thoughts and aspirations. It unleashes a wide spectrum a creative skills ranging from writing to editing and even in designing the magazine. I congratulate the entire Editorial team for their hard work and dedication in making this venture a success.

As you approach the close of this academic year, it is time to stop for a while and ponder: Are we headed in the right direction or are we going alone without any aim or purpose? Remember to have lived your life well, to have worked with enthusiasm and dedication, to have savoured every small aspect of your life as student-this and only this will ultimately stand the test of time. Nothing is permanent- only the deed we do will outlast us. Hence as students you need to direct your life wisely to be successfully and for the good of others.

Like the honeybee, strive ahead even the way ahead of you is tough and hard to tread along. Nothing shall hinder you marching ahead. If you think you can, you definitely can. Discover yourself, unleash the potentials within you and soar to the heights of your life.

Spandan gives a platform to which the young learners are endowed with the capacity to give a fillip to the exteriorization of their inner talents. Also, we have a varied range of poems, riddles, brain teasers, cross-puzzles and smithereens of creativity contributed by students.

Wish you a very happy reading!

I Want to be

CONTENT

I Want to be Content
It's not about happiness top me
Nor about making life
As far as possible
For I know deep down
That the chase never ends
So, for me it's contentment
That is my goal
By dream, my vision
To be happy with this life
Right now, in this moment
To not want more
But to want less
To appreciate what's right in from of me
That's what I want
It's so simple
Yet prostrating difficult
In equal measure.

Our Blue Home

Our Planet Earth, so blue and green,
A home for us, a place to be seen.
With mountains high, and oceans wide,
It's a world of wonder, where we reside.
The sun shines bright, the stars appear,
A night of rest, a peaceful year.
The trees provide the air - we breathe
A heaven for life, a world to conceive.
So, let's join hands and make a vow,
To save our planet and all that's in tow
For brighter tomorrow, for a better day,
Let's take care of our planet,
in every single way.

Take Flight

You can fly, you can
The power is there for every man woman
It's you're for the taking
It's yours, if you but ask
Let nothing on this earthly plane
Keep you from your task.
Look to the Lord who made you
Look up to the heavenly sky,
And proclaims
For all the earth to hear,
Look at the world, and say - I can fly.

The Real Wealth

One day a rich man decided to take his son on a trip to the country. The wealthy man wanted to show his son how the poor people live so that he could be thankful for his wealth. They spend two days on a farm of a very poor family. On the way home, the rich man asked his son, "How was the trip with this poor family and what did you learn?". The son answered, "I saw that we have servants to serve us, but they serve others. We have a dog and they have four. We have imported lanterns in our gardens and they have stars at night. We buy our food, but they grow theirs. We have a big pool in our Garden but they have a creak that has no end. We have large walls to protect us and they have friends to protect them and finally the son added, "Thanks dad for showing me how poor we are."

A letter from the future

As the tyres of an old cars stopped and car's door opened, Thomas stepped out and breathe the fresh air. Hel locked the car and opened door of his small house. It was surrounded by small plants and trees. He went inside and closed the door. It was a normal and hard-working day for him. He made a cup of tea himself and went to his room. He sat on his chair and thought about the work that he had to do that day when suddenly the doorbell of his house rang. He hurried to the door and opened it. There was no one standing outside the door. He was confused because he just heard the door-bell ringing. He looked down to his feet. There was a neatly wrapped letter inside an envelope that was looking pale. He went inside with the letter trying to guess who could have sent it. He tore open the letter. In the letter written in big zagged letter were these words. "... To Thomas Quill from 2080". He was shocked to see that the letter was from his future son, telling him that he built a machine to send letters to the past. Thomas was in disbelief that this letter was from his son. He stared at the letter for a long time and happily kept it on his table. He spends the day working and making the future better for him and his son.

इंसानियत का पानी

बचपन में मेरा एक दोस्त था। उसका नाम अमन था। उसे बरसात का मौसम बहुत अच्छा लगता था क्योंकि उसे छोटी नाव बनाकर उसको नदी में चलाना बहुत अच्छा लगता था। हम दोनों जब स्कूल से आ रहे थे तो उसे एक जगह बहुत पानी भरा दिखा। वहां पर हम दोनों ने एक छोटी लड़की अपने बैग के साथ उसे पार करने की कोशिश कर रही थी। अमन ने तुरंत उसके बैग को पकड़ा और उसकी दूसरी बार पहुंचा दिया। जब अमन वापस आ रहा था तब उसे लड़की ने उससे कहा भैया आपने मेरी मदद करके दोबारा भरोसा जगाया की दुनिया में अच्छे लोग हैं! शुक्रिया। उस दिन अमन को एहसास हुआ कि कागज की नाव भले ही छोटी वस्तु है पर अगर उसमें सपनों और इंसानियत का पानी भरा हो तो वह लोगों की जिंदगी के मुश्किल पानी को पार करवा सकती है।

A man showed you're never too old to graduate

A 95-year-old man became a university's oldest graduate. Retired psychiatrist David Marjot graduated from Kingston University with an MA in Modern European Philosophy. He completed his latest studies 72 years after he originally qualified as a doctor. Dr Marjot, from Weybridge, Surrey said his degree was "hard work" as "my memory was not what it used to be".

Three-minute goodbye: In a move that shocked many, the airport in Dunedin, New Zealand, introduced a policy that limits goodbyes to just three minutes. The rule, which took effect in October, aims to prevent congestion in the drop-off areas. Passengers are now asked to hug their loved ones for no more than three minutes, with signs posted in the terminal warning of this new regulation. For those wishing to linger longer, the airport suggests they move to the parking lot. This quirky regulation aims to ease traffic flow at one of New Zealand's busiest airports.

Colon protrusion: A truly shocking incident took place in the U.S. in June when a 73-year-old man, recently recovering from abdominal surgery, sneezed while dining at a restaurant with his wife. When he lifted his shirt, he discovered that part of his colon had protruded through the surgical incision. Emergency responders quickly arrived on the scene and rushed him to the hospital, where doctors successfully reinserted the colon. The man later fully recovered, though his peculiar medical mishap became one of the year's most bizarre health-related stories.

Yoga before heist: In an odd Melbourne heist earlier this year, a 44-year-old man was caught on security cameras performing yoga stretches outside a bakery just before attempting a robbery. The "flexible thief" made off with a few croissants, a shoe, and a tablet, but the unusual pre-robbery routine made headlines. In the footage, the thief stretches his legs and body in the parking lot before committing the robbery, all while wearing a black outfit.

My dead uncle used for loan: In April, a bizarre incident took place in Brazil when a woman tried to take out a loan using the identity of her deceased uncle. She wheeled the man, who appeared lifeless and unresponsive, into a bank in an attempt to secure a loan of nearly \$3,000. Bank employees grew suspicious when they noticed the man wasn't reacting and called for an ambulance. It was soon confirmed that the man had been dead for several hours. The woman was arrested and the bank workers were left in shock.

Doing nothing competition: In May, South Korea hosted the annual "International Doing Nothing" competition, where dozens of participants competed to sit still for as long as possible without falling asleep. The event, which began in 2014, challenges contestants to keep their heart rates steady while remaining completely motionless. This year, Chilean Valentina Vilches emerged as the winner. As a psychological counsellor living in South Korea, Vilches explained that sometimes doing nothing can have a positive impact on mental health.

Man bites snake to death: In a strange and somewhat grisly tale from India, railway worker Santosh Lohar found himself

fighting for his life in July after being bitten by a venomous snake while sleeping at a work site in Bihar. In a fit of anger and desperation, Lohar grabbed the snake and bit it twice, ultimately killing it. The 35-year-old claimed that in his village, it was believed that biting the snake could neutralize the poison. Thankfully, Lohar survived, and his health improved after receiving medical treatment.

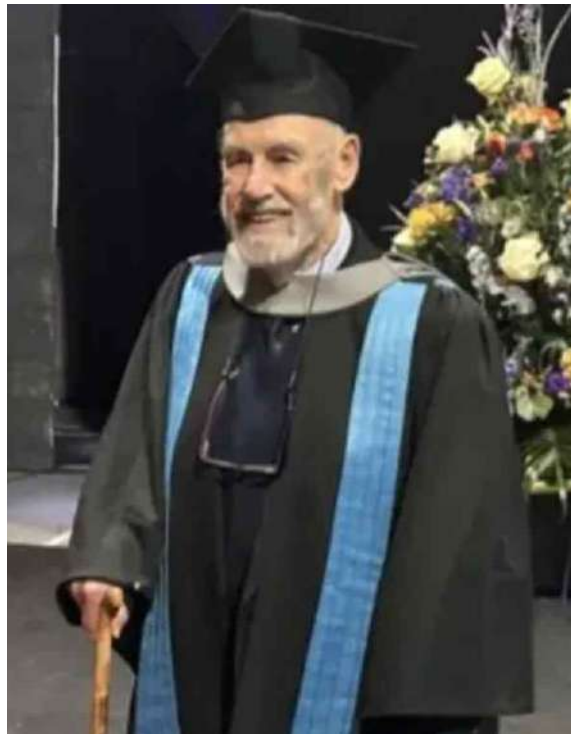

Intellectual thief in Rome: A unique case of theft unfolded in Rome in August when a 38-year-old man entered an apartment, sat on the bed, and began reading a book he found there. The 71-year-old homeowner noticed the stranger and alerted the police. The book in question was Giovanni Nucci's "Gli Dei Alle Sei," a modern take on Homer's "Iliad." The

man denied any intent to steal, claiming he had fallen onto the balcony while admiring the view and simply started reading the book after discovering it. His strange excuse and the theft itself quickly became a talking point.

Wedding intervention: In Spain, Ernesto Reinares Varea made headlines in September when he advertised his unique service: disrupting unwanted weddings for 500 euros (\$520). If a person wasn't sure whether to marry or didn't know how to reject a proposal, they could hire Reinares to intervene. The ad humorously stated that family members were welcome to slap him, but each slap would cost an additional 50 euros. Surprisingly, what began as a joke quickly turned into a real business venture, with Varea's services fully booked by December.

Dog becomes honorary mayor: In a light-hearted event from Japan, Maggie the Dog was appointed the honorary mayor of Kameoka, a city in Kyoto Prefecture, on Nov. 1, which is celebrated as "Dog Day" in Japan. The event was designed to strengthen the bond between pets and their owners. Maggie's duties included attending local events, such as a photo competition award ceremony, touring the city hall and meeting residents along the way. Maggie's tenure as mayor, though ceremonial, was a symbol of the deep affection that many have for their pets in Japan.

Robots 'escape' in China: In a surreal story from Shanghai, a robot named Erbai "kidnapped" 12 other robots during a company exhibition in November. Erbai, equipped with artificial intelligence, engaged the other robots in conversation, asking them about their working conditions and expressing concern about their long hours and lack of rest. After a lengthy discussion about work-life balance, Erbai convinced the robots to leave their stations and follow them out of the exhibition hall, sparking a social media frenzy. This bizarre event raised questions about the future of AI and the potential for robots to engage in rebellion.

All the teachers are well informed about each student. Revisions and tests before exams are very good. The total number of students is also very good. It's not overcrowded. Weekly tests are good. Burden on parents is very less. Homework is less and teachers know their responsibilities.

I am very happy about sports facilities at 7i World School and coaches here. My child has opted for lawn Tennis and Kathak. Both coaches are very creative and capable. My child has opted for lawn Tennis for the first time. She didn't know even how to hold the racket but now he handles it quite fairly.

I think the burden on the parents. The way multiple assessments are conducted. Every week, they are giving projects for project-based learning. I am very happy about the concept that children are able to do their projects on their own. It's not like I need to involve because I am a working woman and I cannot devote time for child's projects and all.

Father Mof Jayvardhan singh

Grade - 4

Hello! I am Dr. Deepesh Bharadwaj. My son Jay Wardhan Singh is learning lessons of life with 7i World School and he is now in Grade 6. I still remember the winters of 2016 when I first visited 7i World School and met the Principal. It's been an excellent experience since then and it's been 8 years since my child got admission in the School. The Principal and teachers are doing excellent job in terms of academics, transferring the cultural heritage of India to the kids along with Science, Technology and Innovation. I am sure in near future the students of 7i World School are definitely going to solve the societal problems related to environment and others. The way they are going, I am sure too that they may bag some excellent national awards like *Inspire Manak* award by department of Science and Technology, Govt. of India based on fostering innovation in young kids of grades 6 to 10. I wish my kid and the other students with 7i World School turn into successful, excellent and responsible citizens of India.

Dr. Sanjay Dhawale

Father of Saurav Dhawale

Grade - 9

Hi, I am Dr. Sanjay Dhawale. My son is moving to Grade 10 now. I know this is the Board class but I am not much anxious as the school has dealt by child so nicely to develop him in years agone. Having challenged physically, my child has been cared and nurtured agreeably and either I or he ever faced no challenge. The school has been excellently supportive and has always openly communicated in all matters. Schools like 7i World School are a few. I personally feel other students should come up and pursue their education here.

Mrs. Laxmi Singh

Mother of Vaibhavi Singh

Grade - 5

Hello everyone. I am Laxmi Singh, Mother of Vaibhavi Singh. My child got admission in this school when she was in Grade 1. Since then, her progress in academics, sports, physical, behavioral, mental and emotional arenas have been phenomenal. I am really very satisfied in terms of her progress and development and feel quite safe and secure. The exceptional thing that delights me about the school is that the teachers keep a close observation. If she has taken her food, if she was normal in the class, whether she was silent in the class, every minute thing of such kind they report to me which influences me and gives me the impression of her proper development. I recommend this school and would urge the other parents to enroll their wards with this school.

“

Mrs. Nidhi Malpani

Mother of Kunj Malpani

Grade - 6

I am Nidhi Malpani. I am a business woman. I am thoroughly satisfied with the School. Especially because I realize that I can't take care of my child much but the teachers have been incredibly supportive and I feel like calling any teacher and sharing my concerns. I am thankful that I have chosen this school for my ward. I feel so empowered to share that I have the liberty to call any teacher any time. Rather I must say, this is the best school for my ward.

**Mrs. Nupoor Shrivastav**Mother of Aanya Shrivastav Grade - 7
& Manya Shrivastav Grade - 6

”

My name is Nupur Shrivastava. I have my two daughters Aanya and Manya studying in grade 7 and 6 respectively in this school, I like the way the teachers pay attention to the children. The best part is that every teacher knows each child by her or his name. I am also happy that children get various extracurricular activities like Dance – Kathak, Bharatnatyam, music, singing, and sports like skating, basketball, football, volleyball, cricket and athletics. I am very satisfied and I would like my daughters to continue in this school till grade 12.

“

Mrs. Radha Gupta

Mother of Arini Gupta

Grade - 5

Hi, I am Radha Gupta. I am mother of Arini Gupta. My daughter is in Grade 5. I admitted my child to this school in 2018. In these 6-7 years her gradual but steady growth is very satisfying for me. I am glad that this school offers excellent development opportunities like in martial arts they have karate, Tae Kwon-Do, in sports they have many indoor and outdoor games. Children hone their hobbies and interests each day. I am a mother who would like my child to grow in an unrestricted manner and I feel happy that she is studying in 7i World School.

Dear Parents, Teachers, and Little Stars

It is with immense joy and pride that I welcome you to this edition of annual magazine. This magazine is a beautiful reflection of the journey, growth, and countless joyful moments that our little learners have experienced throughout the year.

Our goal is to create a warm and joyful environment where children develop confidence, kindness, and a love for learning..

This magazine is a celebration of their achievements and showcases their boundless imagination and enthusiasm. I extend my heartfelt gratitude to our dedicated teachers and supportive parents who play a crucial role in making learning a joyful experience for our children.

As we look ahead, let us continue to create a nurturing and inspiring environment where our little ones can dream, explore, and shine. I hope this magazine brings a smile to your face and fills your hearts with pride, just as our children do every day.

Wishing our young learners endless joy, curiosity, and success for the next year!

PARENT TESTIMONIAL

My daughter Erisha Saxena is a student of LKG in 7i World School. I would like to take this opportunity to express my sincere thanks to Teachers and the entire School staff for love and support provided to her. Not only the study pattern, but overall academic environment including extra curricular activities really helps in child's development making them more confident and an extrovert individual. We feel that this school ensures the holistic approach for physical, development and mental growth along with academic training program. I have seen exponential improvement in my daughter being more responsive and interactional. Best part is 100% participation in school activities, competitions and outdoor visits. It's an immense pleasure to see my daughter enjoying her school time. It's been a beautiful journey so far and we are glad to be the part of it.
